

*Records-5*

Chief, Communications Division, OSO

7 July 1951

CIA Records Officer

Microfilming Processing Test

1. An examination of report dated June 26, 1951 from the National Bureau of Standards reveals that microfilm reels Numbered 56A through 94A meet required standards with respect to residual hypo content.

2. Upon verification of the film as to legibility and usefulness, pertinent records may be destroyed in accordance with Congressional Authorization reported by National Archives Job No. 351-S182. Please advise the total number of cubic feet of paper records destroyed.
